Experience

Milwaukee Tools — Senior Product Designer — May'24 - Actual

Figma · Design Thinking · Confluence · Baymard · Miro · User Testing

Built and scaled the foundations of Milwaukee Tool's enterprise Design System, establishing shared standards for accessibility, interface consistency, and component governance across multiple product teams. Partnered with design and engineering leads to streamline the design-to-development handoff.

Baptist Health — Senior Product Designer — Jan'23 - Mar'24

Figma · Maze · Adobe UX · Jira · Webflow · Adobe Creative Cloud

Led a creative team delivering end-to-end UX services for healthcare clients across Florida. Built and optimized Design Systems in Figma while translating clinical and business requirements into accessible, compliance-aware digital products.

Dell Technologies — Product Designer — Jan'21 - Dec'22

Adobe XD · Sketch · Abstract · Zeplin · Jira

Designed and improved the onboarding and configuration experience for PowerStore, Dell's enterprise storage platform. Simplified complex, multi-step technical workflows for IT administrators and aligned design decisions with engineering constraints in a large-scale enterprise environment.

Kaiser Permanente — Product Designer — Jul'19 - Dec'20

Adobe XD · Sketch · Illustrator · Photoshop · Jira

Advanced the Design System for one of the largest healthcare providers in the U.S., collaborating with cross-functional teams across product, engineering, and research. Delivered scalable, accessible components that brought consistency and quality to patient- and provider-facing digital experiences.

MMM Holdings — Product Designer — Jan'18 - Jun'19

Adobe XD · Material Design · Agile · Design Thinking

Design consultant leading the redesign of MMM Holdings' mobile and web healthcare platform to support the company's market expansion into Florida. Delivered a bilingual experience aligned with the accessibility and compliance expectations of the U.S. healthcare market.
